Excellence in Imaging

The SAPPHIRE 49 Megapixel camera delivers a superior performance in a 7008x7000 pixels resolution running at 35 fps. It uses state of the art global shutter sensor technology. The S-49A35 offers a high dynamic range with low noise levels and a high sensitivity. The camera is compatible with other CoaXPress cameras in the SAPPHIRE series: S-25 and S-50.

The S-49A35 CoaXPress camera comes in a low power, compact outline design without forced cooling through a fan. This provides optimal design freedom for system integration with maximum system reliability. The camera offers Adimec Connect & Grab™ allowing engineers to start system development.

Typical applications examples: Semiconductors metrology tools; Solar panel inspection; Medical.
