

# LineX Series CIS

## Micro Working Distance Line Scan Camera

Product Model: INS-LXM-656-10GM-18L

| Product Model                          | INS-LXM-656-10GM-18L | Remarks                                                     |
|----------------------------------------|----------------------|-------------------------------------------------------------|
| Digital Data Output Interface          | 10GigE*2             |                                                             |
| Scanning Width                         | 656                  | mm                                                          |
| Resolution                             | 1800                 | dpi                                                         |
| Effective Pixels                       | 46856                | Pixels                                                      |
| Line Rate                              | 40                   | kHz                                                         |
| Scanning Speed                         | 0.56                 | m/s                                                         |
| Power Supply                           | +24V×4A              | Power Supply for Control Board&Power Supply for Cooling Fan |
|                                        | +24V×6A              | Power Supply for Illumination Source                        |
| Dimensions (L x W x H)                 | 740*115*106          | mm                                                          |
| Focal Position(from the glass surface) | 15                   | mm                                                          |
| Image Data Format                      | Mono8                |                                                             |
| Cooling Method                         | Fan Cooling          |                                                             |
