

Small Diameter CoaXPress – CXP 12 4 in 1

Product Information

Designed for those applications where a small diameter highly flexible cable is required. This cable delivers the ultimate in data rate transfer performance in a very small and flexible package.

Main Features

- Small cable OD
- Highly flexible cable designed for static applications
- Precision 75-ohm (+/-3) impedance
- PVC Jacket
- 32 awg stranded center coax conductors

Specification

| Cable Specifications | |
|-------------------------------|---------------------------------------|
| Overall Diameter | .197 / 5.0 mm |
| Maximum Length | CXP 6 ~ 8 meters CXP 12 ~ 6 meters |
| Maximum Operating Temperature | 105°C |
| Jacket Color | Black |
| Minimum Bend Radius | Static - 7 x OD |

Ordering Information

| Order Number | Description |
|-------------------|------------------|
| CXP2SD-xx-P4 | HD BNC to HD BNC |
| CXP2SD-xx-BNC4 | HD BNC to BNC |
| CXP2SDBNC-xx-BNC4 | BNC to BNC |

Replace XX with length in meters. Custom variations available, please contact customer service for additional information.
